

Colocation

Racks

Cages

Private Suites

Designed for dependability

We understand that the value of your business is built around your data. Our colocation service is specifically engineered to support and protect your mission-critical applications. Each of our data centers is fully redundant and PCI, HIPAA, SOC 2, and Privacy Shield compliant, so you can rest easy knowing your data is secure and compliant.

-  **Geographical diversity minimizes risk**
Our seven fully controlled Midwest data centers provide perfect geological separation for safe, secure hosting
-  **Secure, compliant, dedicated hosting**
Our culture of compliance, dedication to security, and resiliency shelter you from any storm
-  **Customizable colocation solutions**
Whether you need just one rack or a fully private suite, you can trust your data will be secure and available 24/7
