Diligently defend your data

Protecting sensitive information and mission-critical applications requires ongoing, proactive partnership. We employ a layered approach to security that encompasses our people, processes and technologies to provide a complete security solution.

Our culture of compliance uses that layered approach to lower your organization's risk of outsourcing IT infrastructure.

100% HIPAA compliant

Our safeguards follow the OCR HIPAA Audit Protocol outlined by the Department of Health and Human Services Office of Civil Rights to protect PHI

Fully SOC 1 and 2 compliant

We undergo auditing against both the SSAE 16/SOC 1 and SOC 2 to assess our controls protecting sensitive data

Complete PCI Compliance

We undergo PCI DSS Level 1 auditing annually to ensure cardholder data remains protected

Your data security is paramount

We comply with the six components of ISO 27001, the specification regarding information security management systems
